Preporučuje se raditi sa AHCI enabled BIOS-om i Windows 7 operativnim sustavom.

Napomena:

Please do not update firmware unless absolutely necessary. Firmware updates may result in loss of user data and we recommend you back up your data before updating the firmware. **Ako ovo ne razumijete, ne idite dalje.**

Za razne diskove postoji različit software. Obavezno pročitati upute prije rada.
