## Intel® Remote Management Module 2 Configuration Utility for Windows\*

### Download Assistance

- To begin the download process, click Download.
- For additional details about this download, click Read Me or Release Notes (not available for all downloads).

The Intel® Remote Management Module 2 Configuration Utility for Windows\* (Psetup) displays the IP address that is assigned to the Intel® RMM2 by the DHCP server or changes the device's initial network configuration.

It allows the user to access the Intel® RMM2 even if no IP address is configured.

To run the utility where the Intel® RMM2 is installed, just execute 'psetup'.

**English:** psetup\_1.2.2.exe
